

All proceeds from this event will be donated to the Community Garden at Mountain Valley School in Saguache and to the Student Greenhouse Project at the k-12 Moffat Consolidated School.

We are pleased to host the annual San Luis Valley Seed Exchange at Joyful Journey Hot Springs Spa. It represents so much of what we believe in, including nurturing the health of our local community and environment. In everything we do, whether taking care of the water, the planet or each other, the San Luis Valley Seed Exchange is an expression of our beliefs in a sustainable, supportive community. And we appreciate our partner in this year's event:

Beyond Organica is helping sponsor the 2019 Seed Exchange as well as our own series of free Ag Talks to encourage organic and regenerative ag practices and to cultivate strong connections amongst farmers and their communities. We are striving towards localized food and medicine production and believe food, shelter and livelihood are fundamental rights.

## With Sincere Gratitude to our Sponsors
